

AMRYL HAZYRAN RIZAL AMAN

Network Security | Computer Science Graduate

amrylhazyran@gmail.com | +6017 25 797 25 | Kuala Lumpur, Malaysia

PROFESSIONAL SUMMARY

Motivated Computer Science graduate specialising in Computer Network Security, with a strong foundation in network infrastructure, cybersecurity principles, and software development. Demonstrated analytical and problem-solving capabilities with hands-on exposure to security protocols, network administration, and system management. Seeking to contribute technical expertise in a dynamic network security or IT environment.

EDUCATION

Bachelor of Computer Science (Hons) Computer Network Security Universiti Sultan Zainal Abidin (UniSZA)	2023 – Present CGPA: 3.20 / 4.00 Kampus Besut, Terengganu
Diploma in Business Information Technology Kolej Professional MARA Seri Iskandar, Perak <i>Dean's List – Semesters 1, 2 & 4</i>	2021 – 2023 CGPA: 3.41 / 4.00

TECHNICAL SKILLS

Security & Networking

Network Security	TCP/IP Protocols	Firewall Configuration
Intrusion Detection	Vulnerability Assessment	Cryptography Fundamentals
Network Administration	VPN & Encryption	Cyber Threat Analysis

Programming & Development

Python	Java	PHP
Visual Studio	FTK Imager	Wireshark
Nmap	Cisco	Autopsy

ACADEMIC PROJECTS & COURSEWORK

- **Network Security Project:** Designed and implemented a secure network topology as part of university coursework, covering firewall rules, VLANs, and access control policies.
- **IT Project Management:** Led and managed IT project assignments during diploma studies, applying project lifecycle methodologies and meeting critical deadlines.
- **Graphic Design & Visual Communication:** Participated in the 2020 Pudu District Career Graphic Design Competition, demonstrating creativity and design proficiency using Canva and related tools.
- **Final Year Project - Digital Forensics Tool:** Developed a multi-threaded Python application with a Tkinter GUI for forensic disk imaging and automated data recovery. Utilizing pytsk3, the tool parses partition tables and extracts deleted files from unallocated space. Implemented thread-safe live progress tracking and automated chain-of-custody reporting with MD5/SHA-256 integrity hashing.

ACHIEVEMENTS & ACTIVITIES

- College Outstanding Performance Award – Diploma in Business IT, Semesters 1, 2 & 4
- International School Exchange Program – Nagano Prefectural Shinonoi High School, Japan
- Participant – 2020 Pudu District Career Graphic Design Competition

LANGUAGES	CORE COMPETENCIES
• Bahasa Malaysia – Native • English – Proficient (Written & Spoken)	• Analytical Thinking & Problem Solving • Leadership & Team Collaboration • Attention to Detail & Precision • Adaptability in Dynamic Environments • Committed & Self-Disciplined
